CONSERVATION DISTRICT**
Since 1946

*****Notice*****

Proposed Solar Farm Projects

***Pre-Application Meetings are Required for all Solar Farm Projects
to be submitted to the District***

The District has had several solar farm projects approved and constructed within the Berks County. There have been several situations that have come to our attention that may have been avoided with an open discussion with the District, before the project design began.

The District recommends that a representative for the applicant, and contractor, as well as the consultant attend the pre-application meeting. Meetings can be held in-person at the District Office or virtually (the District uses Teams).

Discussions will include Erosion and Sediment Control Best Management Practices (BMPs) measures during construction, construction sequencing and methods, Post-Construction Stormwater Management (PCSM) Stormwater Control Measures (SCM)

If you have any questions or wish to schedule a Pre-Application Meeting,
please do not hesitate to contact us.
