1	Speeding & dangerous passing occurs on this rarely patrolled road..I avoid if possible	9/7/2021 8:35 PM
2	The nicely installed speed bump last year by CEFC is a danger.	8/3/2021 8:58 AM
3	Generally speaking, although there have been some improvements in recent years, the entire stretch between the New Schaefferstown Rd. northward to I-78 is too narrow and becoming increasingly dangerous as traffic demand increases. The New Schaefferstown Road intersection improvement is a success, but the Old 22 improvement is a disappointment.	8/2/2021 3:23 PM
4	This roadway is very heavily traveled with no consideration for speed limits	8/2/2021 12:20 PM
5	It is a sub standard roadway not suited for the amount of tractor trailers and wide loads that use it.	7/30/2021 12:08 PM
6	The State has not taken into account the addition of multiple warehouses being built in Northern Berks. The amount of employee and tractor trailer traffic has increased dramatically in this area over the last few years. Unfortunately accidents are increasing and will continue to increase as traffic increases.	7/29/2021 11:36 AM

distracted driving, and unsafe speeds, SR 183 is an accident waiting to happen. When you can turn across traffic anywhere on SR183 to get to any destination, with today's volume of traffic, it is insane.

12	Road is too narrow for the amount of truck traffic	7/27/2021 10:45 AM
13	In comparison to other sections of 183 or even branching off roads of 183 like New Schaefferstown Road, I think our stretch pales in comparison to these roads. It is clear based on the priority of the New Schaefferstown Rd intersection that our stretch is not prioritized which makes no sense as it is the primary north/south corridor. Furthermore when they made the improvement to the blinking light the obviously appropriate transition would have been to a full traffic signal. So much investment was made to a style of signal that simply does not work very well, and the same day it was finished there was already an accident there demonstrating the lack of effectiveness.	7/27/2021 9:42 AM
14	Lines need repainted	7/27/2021 9:17 AM
15	dont know	7/26/2021 3:44 PM
16	too many accidents at Old 22 and 183; speeding; passing	7/26/2021 2:26 PM
17	There are times when the grass, bushes and trees are overgrown and it is difficult to see when pulling into 183 from side roads.	7/26/2021 1:51 PM
18	The section from New Schaefferstown Road to Old 22 is VERY narrow. It is a disaster waiting to happen when a wide load and a commercial vehicle (tri-axle/dump truck, or tractor-trailer or bus) are going in the opposite direction and need to pass each other. The 2 bridges (between Old 22 and Spring Rd) barely give enough room for 2 commercial vehicles to get through at the same time. There is NO room for error. There are many other places there there is zero room for error as evidenced by the latest tractor-trailer accident just south of Mill Road. There is another place just north of James drive where the road is precariously unstable and has previously washed away.	7/26/2021 1:46 PM

7	There are tractor trailers passing you if you are only doing 55 mph. Also cars will pass you on the left before you turn right on a road off of 183.	7/30/2021 12:08 PM
8	I witnessed multiple vehicles passing on right while people are waiting to turn left onto Old 22 creating a very hazardous condition for this intersection.	7/29/2021 11:36 AM

10	There are to many tractor trailers that travel 183 for the narrow road that it is.	7/28/2021 12:14 AM
11	Blinking light, people confused what to do when traveling north and south when coming to light and often stop to let people cross over 183 on old22	7/27/2021 10:23 PM

13	Not stopping at stop signs before getting on SR183	7/27/2021 11:39 AM
14	Too many tractor trailers trucks	7/26/2021 8:08 PM
15	So many accidents at the intersection of 183 and Old 22. People pass in both directions on the right when another vehicle is stopped waiting to turn across traffic. Some days you have to sit for 10 minutes in traffic just to get out onto 183 coming from old 22 in both directions.	7/26/2021 4:21 PM

1	The rolling hill in front of Way-Har Dairy significantly decrease the line of sight necessary to safely pass in that area.	8/10/2021 9:31 PM
2	As long as people pass when they can safely do so!!	8/3/2021 3:33 PM
3	Why remove it? People will still pass. Total disregard of laws by drivers	8/3/2021 8:58 AM
4	Removing a passing zone is a distraction from the real problem on a road that has outlived it's traffic demands and will only serve to further slow the traffic flow. The section between New Schaefferstown Road and I78 needs to be widened throughout with additional lanes as needed to INCREASE the speed at which traffic can SAFELY flow.	8/2/2021 3:23 PM
5	It encourages passing at a blind hill and they are no longer in the passing zone. No shoulders to move over to in the event someone miss judges and is still passing a truck. Totally unsafe roadway. Question for PennDOT, how many have to be killed before something is done.	7/30/2021 12:08 PM
6	There should be no passing zones in this area due to the high volume of traffic.	7/29/2021 11:36 AM
7	Unsure, there are few passing zones on 183 and for legitimate passing it seems okay. It's not long enough for those who do not know how to pass, so undecided.	7/28/2021 8:41 AM

11	More traffic on 183	7/27/2021 11:42 AM
12	Based on traffic volume I would say 183 is priority. From a i78 detour perspective, we certainly could use the infrastructure of an excellent Route 22 also.	7/27/2021 9:42 AM

14	The current 183 bridges are undersized and not wide enough for increased commercial traffic. The old 22 traffic is significantly less than 183 for commercial traffic.	7/27/2021 8:44 AM
15	The old bridges and 4 foot concrete abutments should be removed and bridge surfaces widened as they pose severe danger to cars.	7/27/2021 7:49 AM
16	Whichever road has the most traffic should be done first.	7/26/2021 10:01 PM
17	Absolutely!	7/26/2021 9:01 PM
18	Equally important	7/26/2021 6:30 PM
19	I feel 183 is more heavily traveled and will only get worse in the future	7/26/2021 4:21 PM
20	Old 22 is planned already and it always takes twice as long and twice as much to change plans.	7/26/2021 3:00 PM
21	Much more DAILY traffic on 183 as compared to old 22. Only more when a problem on 78.	7/26/2021 2:33 PM
22	depends - 78 traffic regularly gets detoured onto 22 - PRIORITIES	7/26/2021 2:26 PM
23	Both Roads Need it.	7/26/2021 1:47 PM
24	ABSOLUTELY! While Old 22 is an alternate route when the interstate is closed, 183 is used more extensively by commercial vehicles on a daily basis.	7/26/2021 1:46 PM
25	Route 22 is an emergency alternative for I78. Finish.	7/26/2021 1:19 PM
26	improving the road will make people drive faster	7/26/2021 1:19 PM
27	Not just bridges. What about widening to provide a shoulder?	7/26/2021 1:17 PM
28	depends on future development	7/26/2021 12:59 PM
29	Old 22 bridges are not a priority over route 183 bridges and shoulder. Route 183 is grossly undersized for the type of traffic currently on it.	7/26/2021 12:51 PM
30	Indifferent if both are done.	7/26/2021 12:29 PM

Q10 Should unmuffled brake retarders be permitted from I-78 to the New Schaefferstown Road intersection?

1	Same for 419 to I78. The brake retarder noise is excessive.	9/8/2021 12:39 PM
2	There are many residents along SR183 and these brake retarders are very invasive to our quiet rural community. If traffic laws were enforced, there would be no need to use brake retarders.	8/10/2021 9:31 PM
3	They should be made to stop at the top. Such as on 309 above Tamaqua. Reduce gear and come down at a very reduced speed therefore reducing the brake retarders. I live along Club and we can hear it as if they are in our home. The increased truck traffic as of late that use 183&419 because of the warehouses is insane.	8/3/2021 8:58 AM
4	The occasional Jake brake doesn't bother me as much as the constant drone of traffic from I78, but it may be a problem if we lived closer	8/2/2021 3:23 PM
5	Jake brakes are loud 183 does not have a lot of houses except a mile before Way Har and below the store if you need a Jake brake to help you slow down maybe they are driving too fast	7/30/2021 4:53 PM
6	Please put an end to the Jake braking. I really would like to sleep past 4 am. Trucks think the slight grade by my property is a 6% grade and see how much noise they can make all hours of the day in a residential area.	7/30/2021 12:08 PM
7	Make too much noise	7/29/2021 8:05 PM
8	Unmuffled brake retarders should not be allowed anywhere. It happens all the time on Bricker Road with trucks for East Coast Erosion.	7/29/2021 11:36 AM

2	I think PA DOT is way behind the 8 ball on this road and with proposed increase in truck traffic from the soon to be approved warehouse, they are not even on the same table.	8/2/2021 3:23 PM
3	They are in denial. Road improvements are made as political favors in areas where jobs are needed, and contractors have lobbyists to push for certain road improvements. State route 183 is the step child and stuck in a foster home forgotten with no chance of a happy ending.	7/30/2021 12:08 PM
4	We raised concerns before didn't do any good	7/29/2021 8:05 PM
5	At the intersection of Route 183 and Old 22, I sometimes wait anywhere from 3-5 minutes to cross the intersection only having to quickly cross the intersection to avoid oncoming traffic.	7/29/2021 11:36 AM
6	At a UTT Meeting, it was apparent no one cares about spending money for small town problems. It was a missed opportunity to force safety for our community.	7/28/2021 8:41 AM
7	For todays volume of traffic, SR 183 should be a 4 lane highway, with Jersey barriers, and jughandles for safety.	7/27/2021 11:36 AM
8	Again when for years 183 traffic yielded to New Schaefferstown RD traffic, its pretty obvious that there is reluctance to recognize the traffic for what it is.	7/27/2021 9:42 AM

that is consistent about enforcement. PSP once a month or once a week wont be enough to create a new behavior in the reoccurring travelers.
